Preface

The Ignition system is a book which serves as a guide for individuals those who are struggling to achieve success in life. This book is specially made for the Lavish Dreamers team to make it strong enough in knowledge about the team. We are sure that after reading this book you all know about how the dreamers achieve their dreams. I hope in *"well begin is half done"* so, let's start achieving our dreams with the help of this book.

About The Team

Mission:

To bring out individual's talents to make their life meaningful and to help individuals those who are struggling to achieve their dreams.

Vision:

To attain great heights in the society along with our extra-ordinary talented personalities and to take part in the development of our nation.

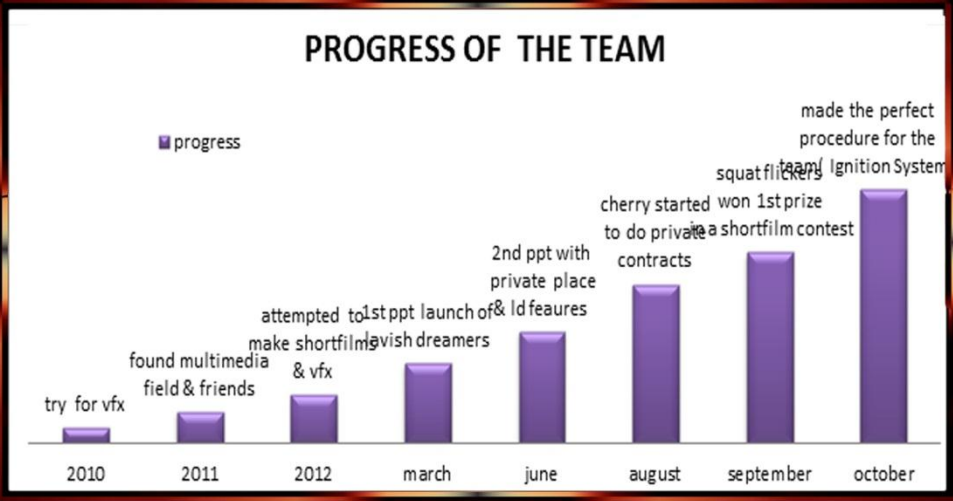

History of the team:

The real history of this team begins with a small group of three friends with a passion in film making to make people to be exited. They named themselves as team dreamers. And they tried to step forward to the society by designing visiting cards, DTP works, project works etc.

Karthikeyan (founder of this team), got a new friend named Maruthu Pandiyan who had a great interest in management and media field. Later Maruthu Pandiyan and karthikeyan become business and media partners. By the idea of maruthu pandiyan the team started to increase its members, this made the work easy, shared and efficient.

In the year 2012 our team had done many projects with its extended team members. In the year 2013 our team stepped forward to make a self recognition by creating a website for it. Our team hopes that we will make attention of some producers and short film makers. And the team was renamed as "LAVISH DREAMERS". Now our team progresses day by day.

Squat flickers

Our Project Screenshots & Description:

1.Yeanachi

Yennachi is the 3rd project of our Squat Flickers team which gave a lot of experience and knowledge. The project was sponsored by the team itself and directed by Gautham & KarthiKN. In this project the team leaned safety precautions, pre-production, importance of scripting, twisting and action sequences.

Vettipeechu veena poochu is the 5th project of our team. This project tuned the standard of our team towards perfection. This project was directed by Maruthu sponsored by Manish. In this project we worked with elder characters, we made good instruction sets, shoot in places like theater (Adlaps), temple, beach, gym, rich house, textile show room, college, and managed to work in crowds. By this project we gained knowledge such as backups, memory managements, on spot security, responsibility and attentiveness on spot, etc.

2.Vettipeechu veena pochu

3. The manitha manitha song

Manidha manidha song from the film shajahan was chosen by the team to learn the song shoot making. This is the 4th project of the team which was directed by Hariharan and Maruthu did the cinematography. In this project we have shown many amazing locations in and around Puducherry. The team faced a lot of challenges while making the project in such difficult locations. In this we planned a combustion shot and we got a good outcome.

LD Events & Achievements

1st Presentation Meet

Our team organized and conducted the first presentation meet successfully at Bharathi Park, puducherry, on 17th march 2013. In which the first six members and two coordinators meet together and launched the team name and banner. There we also launched a local website for our team. There also some project teasers, trailers and motivational documentaries were launched. Then the event ended well with a small party.

2nd Presentation Meet

After three months from the first presentation meet we have proved our progress by conducting the second presentation meet at augustin's house (member of LD) on 30th June 2013. In this over five members, four coordinators and two guests were met. There we displayed the teaser of vettipechu veenapoochu (vpvp) project and the director of vpvp project encouraged the best performer of the project "Mr. Ravivarman" with a small gift. In this meet LD stepped into the new level by introducing the courses for the team members. At last the entire team thanked fazuludeen, who given a lot of supports for the welfare and development of the team. Then the event ended with a small party.

LD Events & Achievements

TALENTS DAY FUNCTION, RAAK COLLEGE

Our team has coordinated the function "Talents day-2013" for Raak arts & Science College, perambai. The motive of the event is to bring out the internal talents of the college students. LD worked and planned the event, designed the invitation, arranged all the requirements, the agenda, etc. Also our team member augustin anchored the full event. As our special thing we displayed a motivational video at the end of the function. The good result about the function reflected back to the members.

"PEARL-2013", RAAK COLLEGE MAGAZINE.

Our team helped the computer science department of Raak arts & Science College to release its department magazine "pearl-2013". We supported by collecting the scattered contents, by making the messages, by editing the messages, and by over viewing the products. Our team members have gained a lot of knowledge by taking part in this issue.
