Message from the founders

Karthikeyan: I am very happy that my dream is coming true, so fast. I am happy to know that this prestigious firm has been creditably contributing towards growth of its sectors. I am confident that our team will continue with its dedicated good work and produce future legends for a happier tomorrow. I wish the core team and associates to continue the good work and make our team a premier firm in the state. At this memorable moment, I heartily convey my best wishes to all those who worked for the magazine "TAKE - OFF". I hope that the magazine will be innovative and informative from the sparkling member and associates who are successful in their different mannerism.

Maruthu Pandiyan: *"Every journey begins with a single step"* we started our journey with our IGNITION SYSTEM. Don't think we have started just a bike or car or anything else but instead we have started a plane of more than 40,000 pounds with huge engines. We travelled across the run way for a period of time and now it's time to TAKE OFF for an adventurous journey. Really it is not easy to take off a plane from the runway to the skies. And the pilot requires extreme courage and dynamism to take off it. So put your efforts together to make the journey successful. I also convey my best wishes to all those who worked to make this wonderful issue.

HIS VIEWS ON EDUCATION

"Education should be imparted with a view to the type of society that we wish to build. We are working for a modern democracy built on the values of human dignity and equality. These are only ideals: we should make them living forces. Our vision of the future should include these great principles.

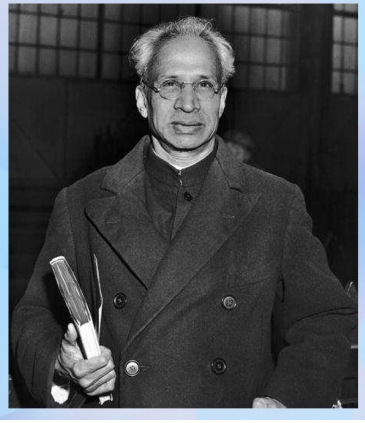

Tolerance is the homage which the finite mind pays to the inexhaustibility of the infinite.

When we think we learn we cease to know.

The end-product of education should be a free creative man, who can battle against historical circumstances and adversities of nature.

We must respect our own dignity as rational beings and thus diminish the power of fraud. It is better to be free than to be a slave, better to know than to be ignorant."

Famous Sayings of Swami Vivekananda

1. Take up one idea. Make that one idea your life; dream of it; think of it; live on that idea. Let the brain, the body, muscles, nerves, every part of your body be full of that idea, and just leave every other idea alone. This is the way to success, and this is the way great spiritual giants are produced.

2. All power is within you; you can do anything and everything. Believe in that, do not believe that you are weak; do not believe that you are half-crazy lunatics, as most of us do nowadays. You can do any thing and everything, without even the guidance of any one. Stand up and express the divinity within you.

3. Do one thing at a Time, and while doing it put your whole Soul into it to the exclusion of all else.

4. Learn Everything that is Good from Others, but bring it in, and in your own way absorb it; do not become others.

5. Ask nothing; want nothing in return. Give what you have to give; it will come back to you, but do not think of that now.

6. Whatever you think that you will be.
   If you think yourself weak, weak you will be;
   if you think yourself strong, you will be

Famous Sayings of Swami Vivekananda

8. Dare to be free, dare to go as far as your thought leads, and dare to carry that out in your life.

9. Arise, Awake, Stop not until your goal is achieved.

10. Neither seek nor avoid, take what comes.

11. We are what our thoughts have made us; so take care about what you think. Words are secondary. Thoughts live; they travel far.

12. Be not Afraid of anything. You will do Marvelous work. It is Fearlessness that brings Heaven even in a moment.

13. We are responsible for what we are, and whatever we wish ourselves to be, we have the power to make ourselves. If what we are now has been the result of our own past actions, it certainly follows that whatever we wish to be in the future can be produced by our present actions; so we have to know how to act.

14. The great secret of true success, of true happiness, is this: the man or woman who asks for no return, the perfectly unselfish person, is the most successful.

15. In a day, when you don't come across any problems - you can be sure that you are travelling in a wrong path

SUCCESS - GOAL SETTING

What is success? Well, success can mean different thing for different people. For some it may be getting their work done, creating some records, earning millions, securing distinction, and lots more. Success in general means to accomplish what we set out to achieve. All of us have one or the other desire and this is but natural. And to achieve what we desire we call it a success.

Swami Vivekananda has said "Take up one idea. Make that one idea your life. Think of it, dream of it, and live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea aside. This is the way to Success".

We have unlimited potentials in ourselves. We are what we think. Even the most successful persons in the world use only the 10% of the "MIND POWER" they have got. The only reason for it is people are unaware of the real power they have within them. That power is nothing else but the "MIND POWER".

Do not leave your life to chance. Make your own luck. Make your own success. You can make it happen by setting goals and then going out and achieving them. Anyone can achieve the things they want by goal setting because goal setting works as a law which can be universally applicable to all in the same way. Only thing you have to do is to have your goal set and then act accordingly. Goals give us something to shoot for, they keep our efforts focused, and they allow us to measure our success. Identify your abilities and limitations and set realistic goals.

There is a technique to achieve a goal. This you will learn by reading further. Once the goal is set keep the belief in mind that you will surely succeed. Humans have immense potentials and intelligence to enjoy a cheerful and healthy life. Instead we often lead a kind of life that is directionless, which leaves us confused in the swirl of wasted thoughts and actions.

"WHEN A PERSON THINKS WITH A STRONG DESIRE AND ADDS HIS POSITIVE EMOTIONS AND BELIEFS, HIS THOUGHT BECOMES A REALITY"

SUCCESS - GOAL SETTING

Concentrate your mind on achieving the goal, trust me you will surely give a new meaning to your life. Only 3% of the people in our society have written goals. That 3% accomplishes more than the other 97% combined! Write down your goals. Only one percent reviews those written goals daily. Be in that elite one percent.

Your conscious mind has limited knowledge and limited power whereas the subconscious mind has infinite knowledge and infinite power. So the conscious mind does not require guiding or suggesting subconscious mind about how to be successful in achieving the goal. Because our subconscious mind has infinite knowledge that it can reach any corner of the world and get the thing or the person you want.

Once we understand this concept we will understand that whatever we get out of our lives is a result of what we have planted in our mind. Our past mental imprints determine our present situation in life. Success is a journey. Simply stay alert and focused and follow your intuition. Connect yourself with people who share your interests, goals and vision for the world. Live a purposeful, cause oriented life. While most people spend most of their lives struggling to earn a living, a much smaller number seem to have everything going their way. If you want 2 succeed in your life, be sweet as Honey, Be regular as Clock, be fresh as rose, Be soft as Tissue, Be strong as Rock.

Develop a passion for education in your field and you will undoubtedly be successful. Enthusiastic people seem to accomplish what they set out to achieve. Their energy is so much greater and directed. They get to their destination seemingly without too much effort. So be enthusiastic towards your goal. To finish any race you have to leave the starting line and follow through to the finish line. To get rich, successful, and happy you must have the patience and persistence to cross the finish line. You must not only get started, but also follow through.

'DESTINY IS NOT A MATTER OF CHANCE, IT IS A MATTER OF CHOICE; IT IS NOT A THING TO BE WAITED FOR, IT IS A THING TO BE ACHIEVED. '
